

Jobsite Power Skids.

All Jobsites Power Skids are built with standardized components for convenience, with every skid made from RESA tested, name-brand components including a fusible primary disconnect switch, transformer, main breaker panelboard and circuit breakers which all carry a 12 month warranty.

Jobsite Power Skids are customizable to include breakers, receptacles and other accessories specific to your job. 45, 75 and 112.5 KVA combinations are stocked in San Jose, CA and are ready for immediate shipment. Other KVA varieties are typically available with less than one week lead time.

12 Month Complete Warranty
