

TEMPORARY POWER SOLUTIONS

**Project Managers -
Tired of wasting time and money on your
pre-construction temporary power?
RESA has an affordable, high quality
solution.**

RESA Temp Power Products are TURN KEY and FULLY CUSTOM. Our Sales Engineers will do the heavy lifting for you. And because we keep many common temp power configurations in stock, we can deliver your gear to the jobsite within 1-2 weeks AR. If you need gear even faster, expediting is available, and we're always flexible and responsive to your change orders.

The best part is that you're not stuck with the gear after your job completes. You can either RENT the gear from us or BUY it with a guaranteed buyback after your job.
